

I would hope you not shut down the XM radio people and the good things they are doing. I know I am only one in the mass of subscribers and only one in that is voicing his opinion. I travel "by driving" and XM provides me with very much news, weather and sports when no other radio station can reach me in the boondocks of Montana, and Wyoming. Leave the XM radio the way it is , and let them provide the great service that I am use to. Thanks.Marvin Taylor
